

Helping radiologies handle **50% more cases**  
with **multimodal AI** – no extra staff needed

# Radiologists **waste more time manually** than on diagnoses

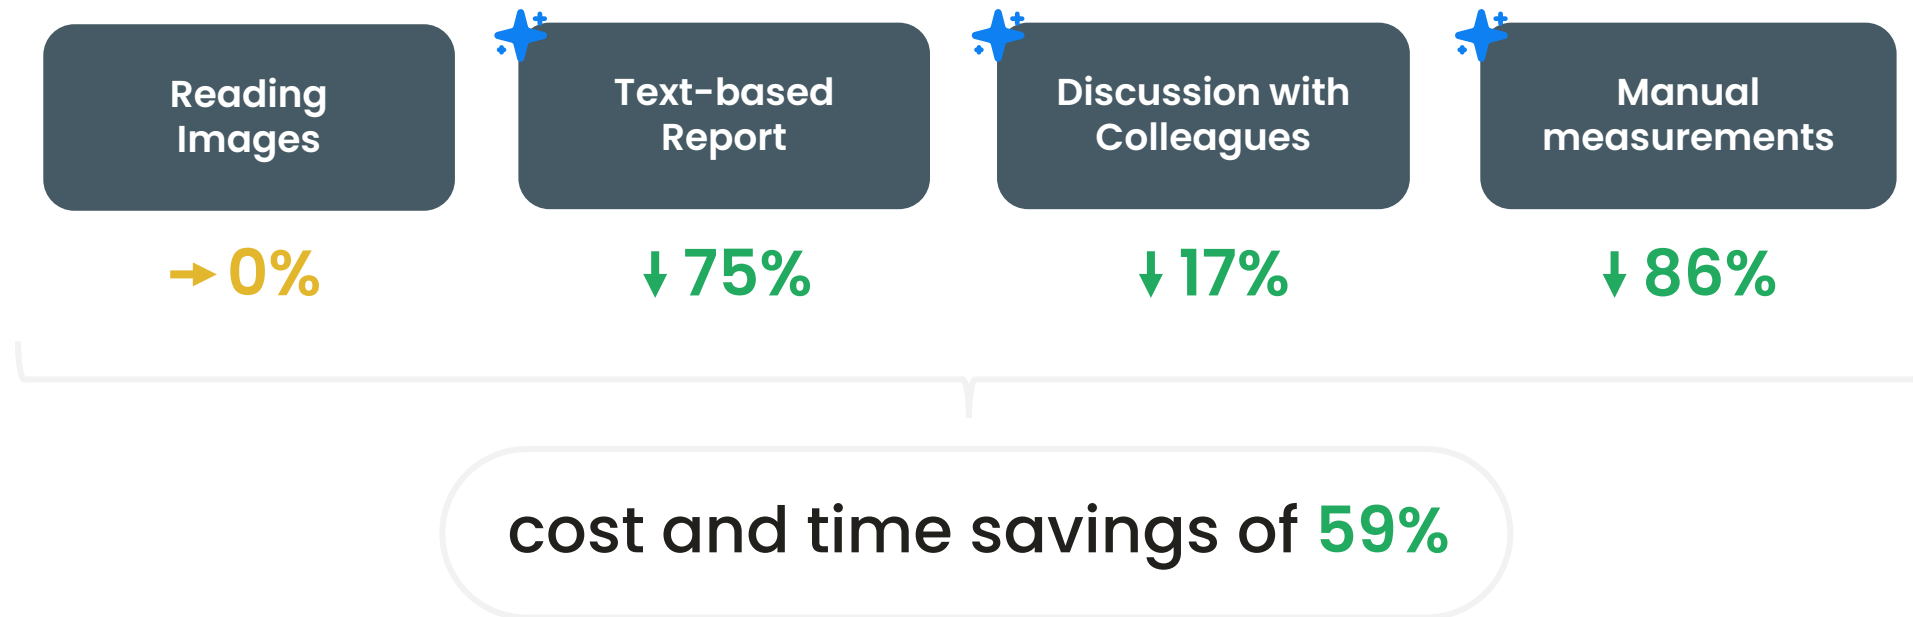

○ Diagnosis Time  
● Costs per Case

# By providing the radiologist an **Instant Copilot**

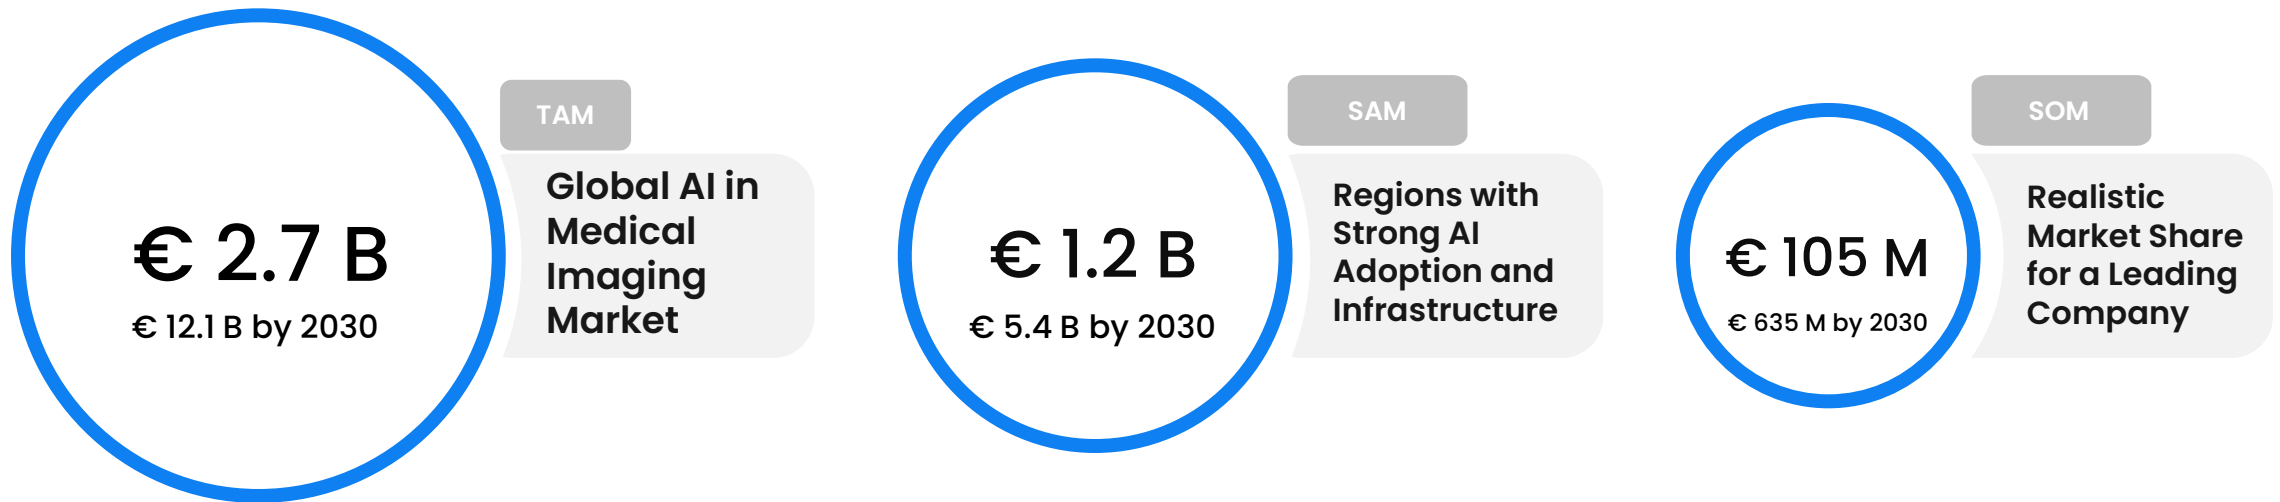

# Giving back the important time for patients

# From **niche** to **scaling**

## We start with prostate cancer

Compound Annual Growth Rate of **35-40%** from 2021 until 2030

# UnvAil is the **first** solution which offers a **multimodal copilot**

## Second Opinion AI

## Structured Reporting

Technology	Multimodal	Image	Text / Voice
Automatic Image Analysis	✓	✓	✗
Standardized Reporting	✓	✗	✓
Integrated Patient Context	✓	✗	✗
Conversational AI assistant	✓	✗	✗

# Why UnvAil is difficult to copy

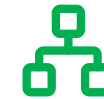

## Large-scale correctly annotated and validated data

We work with specialized datasets that are difficult to obtain and precisely annotated – a key resource for our AI.

## Medical device approval creates high barriers to entry

Our medical device approval protects us from fast imitators. Even big players often shy away from this regulatory effort.

## Deep integration into all major radiology systems

Our solution is fully integrated into PACS, RIS/KIS and biopsy systems. This deep integration into the entire radiology workflow is unique and makes isolated interface solutions ineffective.

# Team with broad experience

**Nils Blaumer**  
CEO & Co-Founder  
Business Informatics

**David Matuschek**  
CTO & Co-Founder  
IT-Systems Engineering

## Medical Advisors

**Dr. Jan Mariß**  
Q2 Certified Board Radiologist

**Dr. David Werner**  
Q2 Certified Board Radiologist

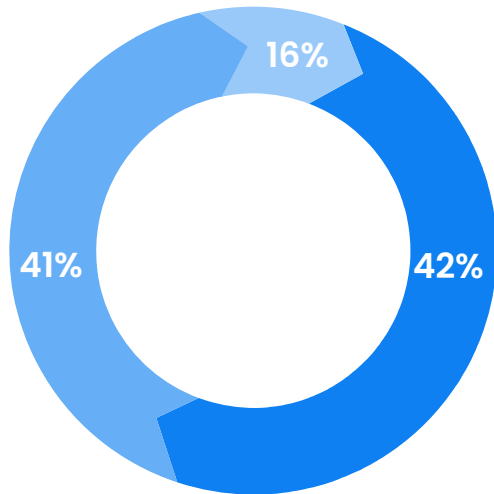

**Dr. David Meinhardt**  
Q1 Certified Board Radiologist

# Raising € 1.2 M Pre-Seed Round

- Development
- Sales & Marketing
- Administration

**Investment**  
Needed to reach the  
targeted milestones in the  
next 16 months

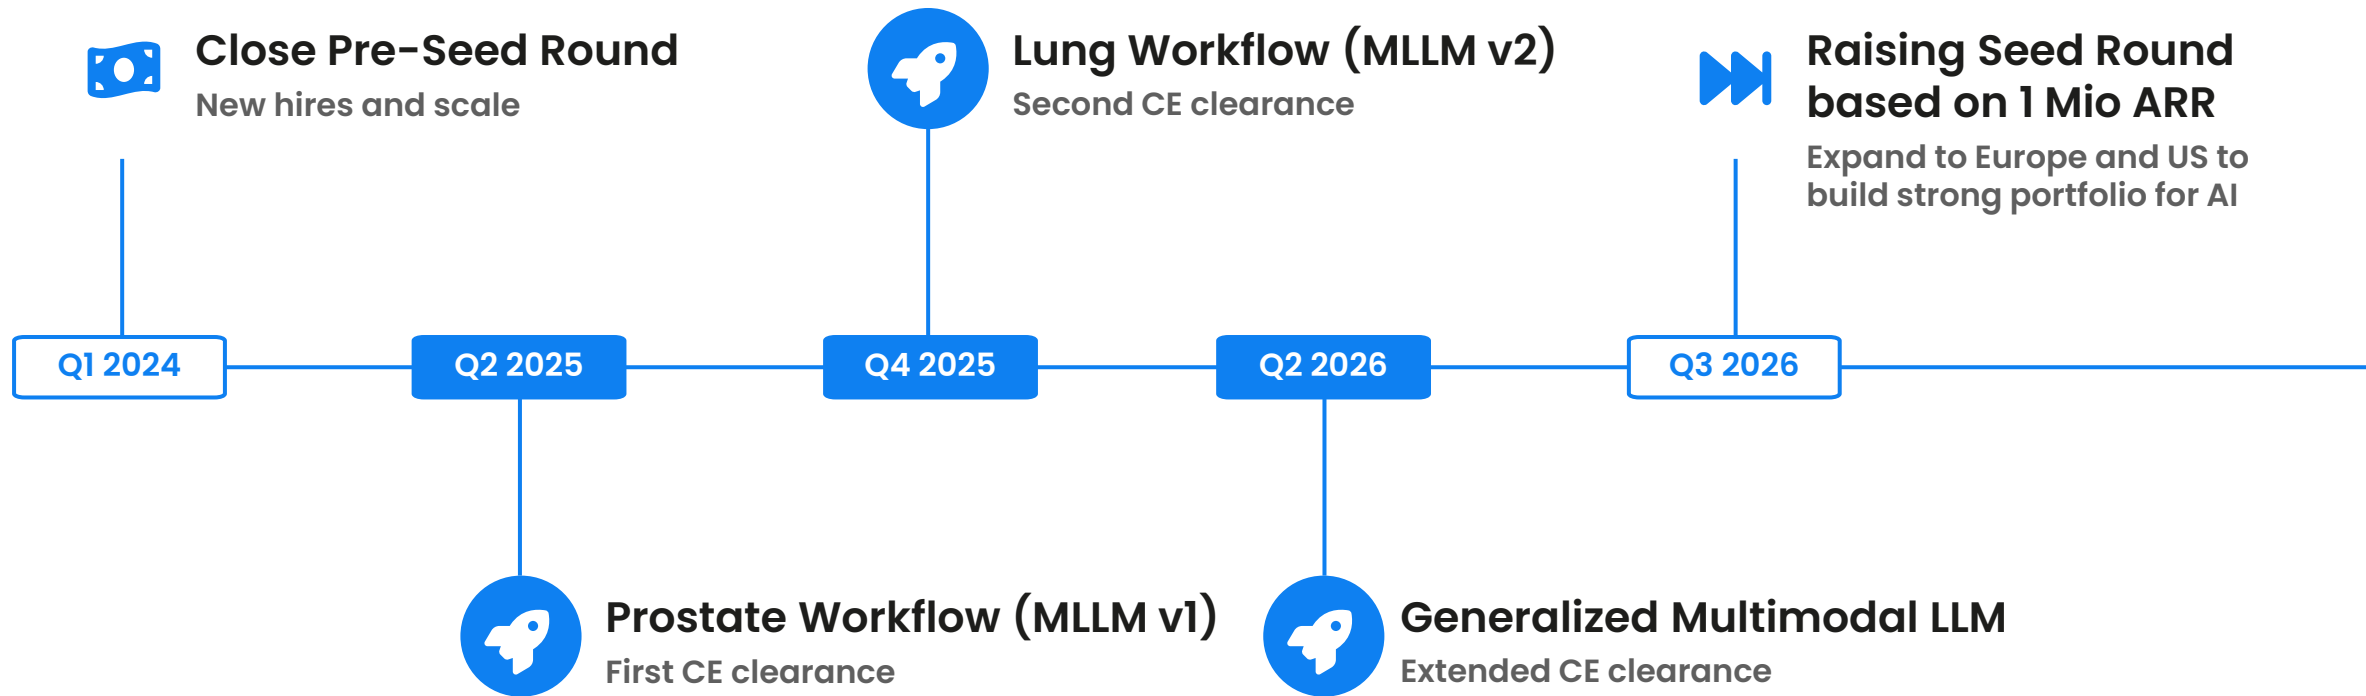

**Target Market Share**  
We want to reach a 15%  
market share in Germany

**Projected Revenue**  
ARR for all customers
